

# MPILO MLAMULI MNDZEBELE

Software Developer | Cybersecurity Analyst

Mbabane, Eswatini • +268 78487602 / 79793794 • mpilo.mndzebele9088@gmail.com

Portfolio: <https://mlamuli-cyber.github.io/mpilo-mlamuli-mndzebele/> • GitHub: [github.com/mlamuli-cyber](https://github.com/mlamuli-cyber)

## PROFESSIONAL SUMMARY

Junior software developer and security analyst with hands-on experience in secure software testing, network administration, and IT systems support, backed by five Cisco Networking Academy certifications in cybersecurity and networking. Independent builder of personal web projects, combining practical development ability with a security-first mindset. Looking to bring this blend of development and cybersecurity skill to a growing technical team.

## TECHNICAL SKILLS

Languages & Frameworks: Python, Java (NetBeans), JavaScript, React, HTML/CSS, PHP/MySQL

Security & Networking: TCP/IP networking, router/switch configuration, network security, vulnerability assessment, CCTV & physical security systems, Kali Linux

Tools & Platforms: Git/GitHub, Supabase, Firebase, Microsoft Office (Word, Excel, PowerPoint)

Core Strengths: Leadership, Teamwork, Problem-Solving, Time Management

## CERTIFICATIONS — CISCO NETWORKING ACADEMY

Introduction to Cybersecurity • Cybersecurity Essentials • Networking Essentials • Ethical Hacker • Cyber Threat Management

## PROFESSIONAL EXPERIENCE

**Busi Quip (PTY) LTD — Junior Software Developer & Security Analyst** *January 2026 – August 2026*

- Designed and executed software tests to identify bugs and security vulnerabilities across active development projects
- Collaborated with development teams to improve code quality and strengthen system security
- Conducted security assessments and recommended remediation strategies to reduce risk

**Xwin (PTY) LTD — IT Team Lead** *December 2024 – January 2026*

- Led a team responsible for user account management and CCTV camera installations for client security systems
- Delivered computer systems support and network troubleshooting for staff and clients
- Resolved customer technical issues directly, maintaining service quality and client satisfaction

**SOS Children's Village Mbabane — NICT Manager Assistant (Volunteer)** *June 2024 – November 2024*

- Configured network devices including switches, routers, and PABX installations
- Provided ongoing computer systems support and managed organizational databases

**Global Transparency Investments — Programmer (Internship)** *May 2024 – August 2024*

- Led the IT team in developing the company website and an internal employee management system using Java (NetBeans), JavaScript, HTML, CSS, PHP, Python, and WordPress
- Configured network devices to establish a functional office network following the company's relocation to a new location
- Designed and edited promotional videos for social media using Canva and Photoshop

## PROJECTS

**Personal Portfolio —** <https://mlamuli-cyber.github.io/mpilo-mlamuli-mndzebele/>

- Designed and built a personal developer portfolio from scratch, implementing SEO, accessibility, and performance best practices to reach Lighthouse scores of 99/100/100

**Beacon — Personal Task Tracker (In Progress)**

- Building a full-featured task tracker using React 19, Vite, and Supabase
